The comptroller

No 1852/E.S. dt 13.5.22

Requests orders of Govt in the matter of counting for pension the temporary service rendered by the officials of his Department. (Shown in the Statement).

According to art 250, an officer transferred from a temporary to a permanent appointment can count his service in the temporary office, if, though at first created experimentally or temporarily, it eventually becomes permanent. As explained by the comptroller in his letter dt 6.9.18, there is essentially no difference between the appointments classed as permanent and temporary. The appointments are included in the same grades, the scale of pay fixed is the same and the nature of work is also identical. Cases of this nature in the Comptroller's office as well as in other offices may be held to be covered by art 250 M.S.R and a general order issued to that effect.

States that no general order has been issued but that each case is being referred to the Fl dept at the time of retirement of the individuals whose cases require the grant of such a concession.

Very many cases have been referred to the Financial Department and the Opinion has been as follows "If there was a permanent Vacancy all the while against which this temporary service could be counted no 'financial objection'. The nature of temporary service ~~does not~~ in the Comptroller's office does not admit of permanent Vacancies. The temporary hands are employed on newly started works and works which require additional establishment. The cessation of that work for which they were employed is not the criterion of their disbandment. ~~But~~ They are kept on in available places and as Vacancies occur, they are absorbed in the regular cadre of

of this department. Thus the temporary men ~~collected~~ fulfill the conditions of probationers. ~~Regularised~~ The Scale of pay and the nature of work are the same and they are trained for regular duties. It is perhaps reasonable that under these circumstances temporary service should be counted for pension so long as it is followed by permanent service and without a break. ~~Of~~ Temporary Service of less than two years when it is not included in the permanent Cadre may be excluded from Calculation. Service of over two years may perhaps be counted. A general order to the effect that ~~service~~ temporary service over two years' duration would be brought under the provisions of art 250 is perhaps necessary not only for the comptr's office but for all departments in which these conditions exist.

Two lists are put up of men confirmed in consequence of the reorganisation, the first consisting of those that had put in over 5 years' temporary service at the time and the second of the rest of them. In the case of all these officials, the Committee recommended their confirmation according to the principles laid down by Govt. and the allocation was finally sanctioned in G.O.No.Fl.2731/G.F. 92-17-11 dated 10-12-18. The only question now for decision is whether all the temporary men should be confirmed irrespective of the length of their service or only such as had completed long temporary service, five years being arbitrarily taken as the qualifying period. In the latter case, the officials whose names are included in Statement I will alone be entitled to the benefit of the provisional

2. As regards the men confirmed subsequently they have earned their confirmation in accordance with the examination conditions and it is for consideration whether they should be deprived of the concession for the reason that the date of confirmation was subsequent to February 1918. The principle having once been recognised, it appears but fair to extend it to all officials confirmed on or after the date of the Government Order. Such apparently was the intention as the object was not to deprive the holders of these appointments, which though temporary are necessary adjuncts to the Permanent Establishment expected to continue for an indefinite length of time, of the benefits of permanent service The concession may, therefore, I request, be extended to all who render or have rendered such temprary service, before being confirmed without its being limited to those who were confirmed in consequence of the Reorganisation as there is no reason why a differential treatment should be accorded to the latter.

At the time of the re-organization of the Comptroller's Office in 1918 there were a number of temporary men in that office ~~with long service~~ and Mr.Datta recommended that such of these men as had rendered long service and as were confirmed on account of their qualifications in giving effect to the reorganization might be permitted to count their temporary service for pension. This recommendation was provisionally approved in para 19 of the Government order dated 26th February 1918 and a list of the men to whom this concession should be extended was called for. With his letter of the 13th May 1922 the Comptroller sent a list of 69 men and requested that the temporary service of these men might be permitted to reckon for pension according to the provisional sanction referred to above. This list included men confirmed subsequent to the date of the reorganization and I accordingly asked the Comptroller to eliminate such cases and confine the list only to men who were ~~fo~~ confirmed in consequence of the reorganization and on account of their being qualified for confirmation. The Comptroller has ~~now~~ now sent a list of 31 men who were confirmed in consequence of the re-organization and whose temporary service varies from about a year to about 15 years. The Comptroller requests that the temporary service of these men may be permitted to count for pension and he also urges that the subsequent cases

of confirmation being of the same nature may be allo
ed the same consideration. I think it is not possi
ble to go beyond the sanction accorded in Government
order of the 26th February 1918 and however deservin
the cases which do not come strictly under that sanc
tion have to be excluded. There are cases of tempo-
rary service in all departments and any consideratio
shown to the Comptroller's Office will have equally
to be extended to others. When men entertained in
temporary service are kept on indefinitely and they
are required to serve uninterruptedly during t h e
best part of their life, it is only fair that the
employer should make a reasonable provision f o r
their old age. But this is a general question and the
~~The~~ excluded cases may be considered
separately ~~as part of the general~~ question when that is discussed; ~~applicabl~~
~~to all~~. As regards the men confirmed in conequenc
of the reorganization the question to be ~~considered~~ settled
is what minimum service should be considered as a
necessary condition for permitting the concession.
Mr. Datta did not specify any period. I think perso
who had rendered on the date of confirmation not les
than two years may be permitted to reckon their temp
rary service for pension.

SIR,

I have the honor to refer to correspondence ending with you letter No.Fl.2597/GF 13-19-25 dated 29-10-19 declining to reconsider the orders vetoing the proposal for the continuous temporary service rendered in this office followed by permanent service being reckoned for pension in accordance with the recommendation of Mr. K.L. Datta and provisionally approved by Government (Para 19 of G.O.No.Fl.4613-52/G.F.92-17-3 dated 26-2-18). I do not propose now to reopen all the questions raised in previous correspondence, but it is necessary that final orders should issue as regards men whose claims to count temporary service followed by confirmation towards pension are covered by the provisional approval already accorded and a list of whose names had to be submitted with the proposals of the Committee constituted in para 2 of the above order for determining the relative position of officials in the combined Civil and Public Works cadre. examining this question is hardly necessary at this stage. The fact, however, remains that the men who were confirmed under the order of 1918 or later have all along been led to expect the concession provisionally sanctioned by Government to materialise finally with any suitable amendments. It has, therefore, not been possible to drop the question altogether at the point reached in 1919.

2. I forward herewith a statement showing the names of officials of this Department who have rendered continuous temporary service prior to their confirmation in their appointments in February 1918 or subsequently, showing the dates of birth, the dates of entry into service, the dates of confirmation and the length of temporary service which should qualify. The names of officials who were transferred from other departments or whose temporary service is partly in the Accounts Department or who, though their temporary service was entirely in the Accounts Department were confirmed long before any concession was contemplated or had not put in 5 years temporary service have been omitted.

3. I request that early orders of Government may be kindly obtained to count for pension the temporary service rendered by officials of this department as detailed in the statement.

I have the honor to be,

Sir,

Your most obedient servant,

J. Satyanarayana
